# Isaac Santiago

## Experience

**Freelance Graphic Designer** | 05/2020 - Present | San Jose, CA

- Meet with clients to gather and define their proposed requirements. Incorporate illustrations, pictures and logos to express their desired theme.
- Plan concepts by studying relevant information and materials based on each given project.
- Develop both print and digital marketing material such as flyers, ads and banners.
- Use of typography to create aesthetically pleasing designs that convey a clear and effective message.

**Coding Dojo** | 03/2020 - 06/2020 | San Jose, CA

**Student Software Developer**

- Learned the fundamentals of web and software development over a 14 week immersive online coding bootcamp.
- Three full stacks included: Python, MERN, JAVA.
- Completed timed exams which included building a working application based off the technologies and concepts learned within each stack.

**Aztec Recreation Center** | 03/2019 - 12/2019 | San Diego, CA

**Graphic Artist**

- Created posters, flyers, postcards, web banners, newspaper advertisements, and edited photographs.
- Ensured consistency with all Style Guides including fonts, logos, and symbols.
- Prepared branded images and graphics for Aztec Recreation social media accounts.

## Software Projects

**Music Player** | [Repo](#) | [Website](#) **Tech:** React, JavaScript, HTML, CSS.

- A full functional music player fetching data from Jamendo Music API. Users are able to pause, play, skip songs forward and backwards. Also, are able to see a Library section to view all of their favorite songs.

**Covid-19 Tracker** | [Repo](#) | [Website](#) **Tech:** React, JavaScript, HTML, CSS.

- This project fetches data from an API. It provides Covid-19 statistics from different countries such as active cases, recovered, deaths, active and critical condition. As well as search functionality by name for a specific country.

**Task Manager** | [Repo](#) | [Website](#) **Tech:** React, JavaScript, HTML, CSS.

- Task Manager allows you to organize tasks by category. Categories are To-Do, Progress, Complete and On-Hold. Functionality includes drag and drop, create, edit, and delete tasks.
